

BBQ Request Form

If you would like to light a BBQ on the “Concrete Lighter” please read through the following safety advice and sign the form at the bottom of this page.

General Safety

- Make sure your barbecue is in good working order and on a level base where it will not tip over
- Keep children and pets well away from the cooking area
- Don't drink too much alcohol if you are in charge of the barbecue
- Don't put the barbecue where people have to squeeze past it
- Never leave the barbecue unattended
- Keep a bucket of water or sand nearby for emergencies
- Ensure the barbecue is cool before attempting to move it

Charcoal Barbecues

- Use only enough charcoal to cover the base to a depth of about 50mm
- Only use recognised fire lighters or starter fuel and only on cold coals – use the minimum necessary and never use petrol
- Never put hot ashes straight into a dustbin or wheelie bin – they could melt the plastic and cause a fire.

Gas Barbecues

- Make sure the tap is turned off before changing the gas cylinder
- Change cylinders outdoors if possible or in a well-ventilated area
- If you suspect a leak to the cylinder or pipe work, brush soapy water around the joints and watch for bubbles – tighten to fix but do not overtighten
- After cooking, turn off the gas cylinder before turning off at the controls to ensure any residual gas in the pipe work is used up.

I the undersigned confirm I have read this safety notice and I agree to:

- Act as the responsible person for the BBQ
- Be the contact point for Queenborough Harbour staff
- Follow the safety advice
- Remove any rubbish once the BBQ has finished and leave the “Concrete Lighter” tidy
- Pay a deposit of £20 on the understanding it will be returned if the facility is left clean & tidy
